

LETTER OF INTERNSHIP COMPLETION

Dear Peter Atef Fathi Zaki,

Congratulations on successfully completing your Data Science internship with VNCR for three months from the period of July 1st, 2023, to October 1st, 2023.

As an intern, you were always sincere and completed your work on time. During your time with the team, you managed to work on the project given to you under the delivery duration mentioned. You were diligent when it came to understanding concepts in data science and self-motivated when it came to solving problems.

It was a delight to work with you, Peter. I hope you had a great learning experience.

We wish you the very best in your future endeavours.
